WORKING PAPERS

Entry barriers in provider markets: evidence from dialysis certificate-of-need programs
Measures dialysis CON programs effects on entry, competition, access, treatment modality, hospitalizations, congestion, mortality, and costs in North Carolina and Washington.

Estimating event studies when units experience multiple events
Develops difference-in-differences estimators for settings where units experience multiple successive events and evaluates their effectiveness in Monte Carlo simulations.

WORKS IN PROGRESS

Provider payment incentives: evidence from the U.S. hospice industry
with Norma B. Coe

The economics of urgent care center entry
with Ari B. Friedman and Natalia Serna

Is it time yet? Measuring the negative externalities of ambulance diversions
with Ari B. Friedman

Shutting the door behind you: CON programs and preemption in the U.S. dialysis industry

Do mandatory minimum standards influence charity care expenditures? Evidence from Illinois.

What happens when resources move but quotas don't? Unintended consequences for Atlantic fisheries
with Bozidar Plavsic
